1. Introduction

This document is the template for a typical journal paper. An easy way to comply with the paper formatting requirements is to use this document as a template and simply type your text into it. All papers must be written by Microsoft Word 2010 or the next versions. To write the article, the authors should pay attention to the following points:

- Your paper must be in A4 size with two columns format.
- The article (except abstract and keywords) should be written in two columns with 7.46 cm width and 1 cm spacing between with a single line.
- The margins must be set 3 cm for top and bottom and 2.5 cm for left and right.
- The length of your paper should be between 7 to 10 pages.
- All manuscripts must be in English with the fonts listed in the table1.

This section provides the reader with all the details of how you conducted your study. You should mention the following details:

- 3.1. Theoretical Foundations of Research
- 3.2. Research Background

All of the Tables and Figures must be in the center of the page. Tables and figures should be cited consecutively in the text. Every statement of fact or description of previous findings requires a supporting reference. To refer to a reference, just insert the reference number inside a [] at the end of the sentence. For example [2] [5].
